

Press Release | February 21st 2019

Cooperation Quehenberger Express & nox NachtExpress Austria

Quehenberger Express & nox NachtExpress Austria are cooperating in the field of express deliveries.

As of April 1st 2019 Quehenberger Express und nox NachtExpress Austria will be cooperating in the field of express deliveries.

With this partnership, Quehenberger continues to strengthen its network for logistics solutions and is able to offer through nox's express network both - express deliveries by day and by night (Innight) on a very high level.

In the future, Quehenberger will be able to use the transport network of nox in Austria as well as its international network. Nox takes over the customer contracts regarding day time express services of Quehenberger in Austria, except from Carinthia and the subsidiaries in Hungary and Slovakia. In Carinthia, we Quehenberger will continue to provide its own service and will be assigned from nox as partner for daytime express deliveries.

Two partners complement each other's product portfolio

"With this cooperation both partners strengthen the efficiency of their networks and in addition, they perfectly complement each other in their product portfolio", says Christian Fürstaller, CEO at Quehenberger Logistics. Especially in the B2C area, in which nox has the competence in the field of 1-man-handling and Quehenberger in the field of 2-man-handling and premium services. Both companies consider the cooperation as a huge potential for cross-selling activities. "We are convinced that the customers of Quehenberger and nox NachtExpress will benefit from the high quality standards and the additional possibilities of the extended product portfolio", says Christian Teply, Managing Director of nox NachtExpress Austria about the Collaboration.
